Logesh A J

Details

Current Location - Bengaluru
DOB - 22 /06/2006
Phone - 9342032508
contact.logeshaj@gmail.com

Skills / Software

- Synopsys Sentaurus TCAD
- Microcontrollers
- python
- Gen AI
- Arduino IDE
- C-language
- YOLO/CNN
- Matlab
- AI & Machine Learning
- PLC -Programing
- Cadence Virtuoso
- Unity
- Web Design
- KiCad

Languages

- Tamil
- English
- Malayalam
- Hindi
- kannada

Profile

An Electronics and Communication Engineering student with a strong interest in research, artificial intelligence, aerospace systems, embedded technologies, and intelligent automation. My experience includes computer vision, lightweight AI deployment, and deep learning architectures such as 2D CNNs, 3D CNNs, and YOLO-based detection models. I actively work with hardware–software integration using ESP boards and sensor systems, and I enjoy developing efficient, real-time solutions for practical applications. With a focus on innovation, experimentation, and problem-solving, I am motivated to contribute to advanced research and emerging technologies across Electronics, AI, and Aerospace.

Education

A.P.J.M. Matriculation Higher Secondary School, Kanyakumari

Completed Higher Secondary (+2) with PCM (Physics, Chemistry, Mathematics)

Christ (Deemed to be University), Bangalore

Currently pursuing B.Tech in Electronics and Communication Engineering with a minor in Artificial Intelligence and Machine Learning

Certificates

- **Winner – Prakalp National Level Project Competition (PIONEER 2026)** KIT's College of Engineering, Kolhapur; Cash Prize 20,000 for the project "Intelligent YOLOv8-Based Rover for Precision Agriculture: Tomato Ripeness and Disease Detection".
- **Best Project Award (2025-2026)** – Department of Electronics & Communication Engineering, CHRIST (Deemed to be University), Bengaluru for Intelligent YOLOv8-Based Rover for Precision Agriculture.
- **2nd Place in Co-Curricular Activities -** Department of Electronics and Communication Engineering CHRIST (Deemed to be University) of Academic Year 2025–2026.
- **3rd Place –** Engineers' Day Project Exhibition (ICE TECH 2025)
- **Applied Industrial IoT Certification (First Class)** – L&T EduTech CollegeConnect Programme.
- **Cisco Certification –** Cybersecurity Essentials
- **NPTEL Certification –** Embedded System Design with ARM
- **30-Hour Value Added Course in Automation and Data Science** – Center of Excellence in Automation, CHRIST University.
- **Certificate of Appreciation –** Technical Expert, School Immersion Program, CHRIST University.
- **Participated – InnoPitch 2025 Ideathon Competition**
- **Completed MATLAB Training – 10 Specialized MATLAB Courses**

Projects

- **Hand Gesture Recognition System** – Real time gesture classification using 2D/3D CNN architectures
- **Tomato Farming Rover** – YOLO based ripeness estimation and plant disease detection
- **Drone-Assisted Precision Agriculture System** – Real time crop monitoring and analytics
- **Voice-Controlled Dashboard Interface** – Hands free control using lightweight speech models
- **AI-Powered Smart Billing System** – Product detection and automated price calculation using computer vision

- **Smart Waste Classification Bin** – Automated waste segregation using image-based detection
- **Soil Moisture Monitoring & Automated Irrigation** – Sensor based precision watering
- **Password-Protected Circuit Breaker** – Electrical safety and access control system
- **Interactive Graveyard Environment in Unity** – 3D scene design and environment modeling

Conference Paper

Precision Farming on Sugarcane: Drone-Based Disease Detection Using YOLOv8 Neural Models

https://ieeexplore.ieee.org/document/11296538/

Intelligent YOLOv8-based Rover for Precision Agriculture: Tomato Ripeness and Disease Detection

https://ieeexplore.ieee.org/document/11416660

PATENTS / INTELLECTUAL PROPERTY

Indian Patent – Filed and Published
Application No: 202541126674 A
Filed: 15 Dec 2025 | Published: 13 Feb 2026
Status: **Under Examination (Patent Pending)**

Internships

Hardware Intern – KELTRON, Trivandrum, Trivandrum

Project Intern – e-Mobility Lab, Christ University, Bangalore

Artificial Intelligence Intern - CodSoft(Online)
